While a handful of protocols are supported, protocols that do not offer encryption, such as L2TP and PPTP, are not supported. Which VPN protocols are supported with manual setup? Recommended solution: use the OpenVPN configuration Recommended solution: use ExpressVPN for routers Alternative solution: use a router that supports OpenVPN configurations that VPN VPN protocols support expressVPN for manual configuration? ExpressVPN supports the following protocols for manual configurations: OpenVPN: Open Source and extremely secure. Not compatible with some devices.l2tp/iPsec: Secure but slower than OpenVPN. Occasionally it may be blocked by firewall. IMPORTANT: L2TP/IPSEC should not be confused with L2TP. L2TP does not offer any encryption support. Contact the ExpressVPN support team for immediate assistance. Go back to the top recovery solution: use the OpenVPN configuration if your router supports both OpenVPN and L2TP manual configurations, you are strongly advised to use the OpenVPN configuration. This involves downloading the manual ExpressVPN configuration files and applying them to your router. You can find instructions for your specific router or contact the ExpressVPN support team for help if your specific router model does not appear on the list. Before communicating with support, check your router’s documentation to make sure it supports manually configured OpenVPN connections. Contact the ExpressVPN support team for immediate assistance. Back to top recovery solution: use ExpressVPN for RoutersexpressVPN for routers encrypt your router’s Internet connection and apply the same protection to every connected device ne ne NPVsserpxE rodaturne led erawmrif le "HSALF" y ragracsed iÃrebed ,serodaturne arap NPVsserpxE rasu araP .l©Ã ExpressVPN for routers is available for some Asus, Linksys, Netgear routers. If your specific router model is not listed, you can submit a request to the ExpressVPN Support Team. ³ contact the ExpressVPN support team for immediate help.Back to topSolution³ An alternative: Use a router that supports OpenVPN configurationsIf your current router does not support OpenVPN configurations, we recommend that you switch to a router that only does.OpenVPN is open-³ and uses SSL/TLS for key exchange, making it a trusted protocol that provides an ideal combination ³ speed and security. A variety of modern routers, at various prices, support OpenVPN.Â Need help? Contact ExpressVPN support team for immediate assistance.
